The toys have set everything up, so you can play all their carnival-inspired games. Andy's away, so it's time to play!*

GETTING STARTED

To get started, choose how you would like to play. You can either choose to play with an Xbox 360 controller or play with Kinect. Next you will be taken to the Main Menu where you can play Adventure Mode or Party Mode or Free Play or even visit the Options or Rewards Screen.

If you have been lucky enough to visit the Toy Story Mania! Attractions at Disneyland® and Walt Disney World®, many of the games will be very familiar to you.

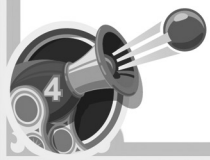
SCORES AND PRIZES

At the end of each game, the curtains are closed and reopened to reveal the Score Screen. The Score Screen tallies the Score for that game, and shows how many secrets have been unlocked in that game… and how many secrets still remain.


When playing in Adventure Mode, once all of the levels in the adventure have been completed, there will be a special Score Screen where the player can celebrate with Toy Story characters and receive a Sticker as a prize!
