CONNECT TO Xbox LIVE

Xbox LIVE

Xbox LIVE® is your connection to more games, more entertainment, more fun. Go to **www.xbox.com/live** to learn more.

Connecting

Before you can use Xbox LIVE, connect your Xbox 360 console to a high-speed Internet connection and sign up to become an Xbox LIVE member. For more information about connecting, and to determine whether Xbox LIVE is available in your region, go to **www.xbox.com/live/countries**.

Family Settings

These easy and flexible tools enable parents and caregivers to decide which games young game players can access based on the content rating. Parents can restrict access to mature-rated content. Approve who and how your family interacts with others online with the Xbox LIVE service, and set time limits on how long they can play. For more information, go to **www.xbox.com/familysettings**.

CONTROLLERS

MONSTER ENERGY TRICK BATTLE

Y Trick Button 1

X Trick Button 2

B Trick Button 3

A Trick Button 4

GAME PLAY

BURNING START

At the beginning of the race all the riders are placed in their respective positions behind the gate. While waiting for the gate to drop, open the throttle and hold on to the brakes; as soon as the race starts release the brake button. If you do this with the correct timing, your bike will have a burning start that will make you go very fast since the beginning of the race.

HOLESHOT

The fastest rider at the start, the one that reaches the "Love My Time" arch in first position, wins the holeshot! A good gate choice can assure you a better position to get the holeshot.

SCRUB

The Scrub is a technique that gives a speed boost for a short amount of time when correctly executed. Scrub is based on timing and jumps: press the button just before the jump and release it a few moments before landing. Pressing it too early will slow down your bike, releasing it to early will abort the scrub, releasing it too late can make your rider fall.

ENERGY DRINK

Energy Drinks give you some extra speed for a short amount of time during the race. After you have used them, you will be able to push your bikes beyond the limits for a while. You have a limited amount of energy drinks for every race, so choose carefully when to use them and don't waste them. Energy Drinks are not available in Trick Battles.

GAME MODES

Official Mode

QUICK RACE

The Quick Race gives you the possibility to get immediately to the heart of the Motocross competition! In this game mode you can customize your race, selecting your rider, the track, your opponents'skill and the race time.

CHAMPIONSHIP

In the Championship Mode you have the possibility to race the Official MX Championship or a custom one. Choose a category - MX1 or MX2 – the opponents' skill and the race time. You can also choose to race like in the real thing enabling the Qualifying Session and Race 2.

MONSTER ENERGY FIM MOTOCROSS OF NATIONS™

The Monster Energy FIM Motocross of Nations™ is a race challenged by the strongest nations of the world and used to be raced at the end of the official championship. Race with your Nation in the category that you prefer and try to be the Champion of Nations!

MUD World Tour

WELCOME

Manage up to four Heroes, make them grow, event after event and bring them to the final race: the Monster Energy FIM Motocross of Nations™. Heroes are the stars of the MUD World Tour. Exploit their talents in order to win all the MUD Events! Select their Team, find new Helmets to wear, You can mould heroes' skills by buying skill points, choose their Energy Drinks and increase their skills points.

Every Hero was born with a Talent that makes him better

in a specific race, when he wins the race corresponding to his Talent he gets a bonus.

LEVELS & EVENTS

Levels are the backbone of the MUD World Tour. They contain the Events, the beating heart of this game mode. There up to 5 different types of Events:

- Race - A race against other 15 riders!
- Checkpoint Race - Pass the highest number of checkpoints in the given time to win the race.
- Elimination Cup - A race against time, the last one is eliminated!
- Head to Head - Two riders face off on the same track.
- Monster Energy Trick Battle - Obtain more points to win the battle! (see next chapter)

And then the final event:

- Monster Energy FIM Motocross of Nations™ - A race against the strongest riders of the the strongest nation in the world

MONSTER ENERGY TRICK BATTLE

Monster Energy Trick Battle is a different kind of race; here the key for victory is not the speed but the acrobatic ability. You'll race in special arenas specifically designed to make you jump high in the sky. While on air, you'll be able to perform the same tricks of the professional freestyle rider simply by pressing the correct sequence of buttons. If correctly performed, every trick will give you a score and the rider with the highest total score at the end of the battle will be the winner. Remember, the harder the trick the higher the score!

Online Multiplayer

Quick Race

The Online Quick Race is the easiest way to put your bike on the track! Challenge up to 11 other players and try to do your best for the final victory! Every race gives you points to raise your level in the Online World Ranking. You can host a match choosing the track, the category, the max number of players that can join your match, the race time and eventually the presence of other AI and collisions. You can also create private matches to play only against your friends.

Monster Energy FIM Motocross of Nations™

The prestigious Monster Energy FIM Motocross of Nations™ can be played also online. Challenge up to 11 other players to set the Champion of the Nations! Live the experience by taking part in a match or hosting a new one in the marvelous track of Saint Jean D'Angely in France.

Game Option

Controller Layout

It allows viewing the controller configuration.

Sound Options

The Sound section allows setting up the music and effects volume for the race and the menu. From this screen it is possible to disable all the kind of sounds as well.

Gamma Correction

This is a feature that you can set only in the Pause Menu. Use it to adjust the color in order to watch the game colors in the best way possible.
