Extending the Learning Experience

Family Activities

Art Appreciation

Have your child make a list of the artists he or she has learned about in str.at.e.s. Then go to the library and check out books displaying works by these artists. Look through the books together and take note of the various styles. Ask your child questions such as: "What do you think the artist is trying to express to you through his or her artwork? What is your favorite piece of art?" Encourage your child to recreate a favorite piece of art or create a new piece of art in the style of a favorite artist.

Title Scramble

Cut out news articles dealing with current events. Separate the article titles from the text. Have your child read the news stories aloud and match the correct titles to the stories.

Send a Postcard

Work with your child to create an imaginary postcard from one of the historical characters found in str.at.e.s. Have your child draw a picture of the location on the front of the postcard and write a greeting to another historical character on the back.

TV Vocabulary

Turn TV watching into a learning experience by having your child jot down unfamiliar words he or she hears during programs or commercials. Have your child use a strategy learned in str.at.e.s., such as guessing, context clues, root words, or using a dictionary, to determine the meaning of the word.
