

SHADOW OF THE BEAR

Hints for Playing

Start by robbing the Plane, and finding location with HUT where you will find a ROPE. Next find the Axe, so that you can CHOP WOOD and GET WOOD for a) lighting a fire to give heat and b) making a snare to catch hares which can be cooked to give energy.

Huts may be entered and searched but are best left until you reach the PODNIK/ GORKA AREA, as once an item is displayed, it will *NOT* re-appear later if not taken, and there is a limit to how much you can carry. However you may leave *MOST* items at any location and retrieve them later.

DO NOT LET HEAT FALL BELOW -40, or GO ABOVE 30

This is not so much a MALE game, MORE AN OBSTACLE COURSE, and you will need to make a RAFT as well as the SNARE.

Last tip – Don't be afraid to SAVE your game – this facility is available due to the complexity of your task and should be used whenever you successfully negotiate a hazard.
