STORY:
Darkness has descended over the land, and out of that darkness has come an evil force that brings terror to all who live there. The creator of this evil force must be destroyed but, guarded by an army of malevolent apparitions and fearless she-warriors mounted on fire breathing dragons, there are many who think the task impossible.
One man, not yet bloodied in battle and too young to know fear, has volunteered to enter the castle and recover the Scroll of Necromancy, source of power and life force of the evil master. However, the task is more difficult than first thought. The scroll has been torn into four parts, each hidden within the 200 rooms of the castle – **THE CASTLE OF THE LORD OF DARKNESS.**

THE GAME:
To complete your quest you will need to buy certain items from the shops located in the castle. Money can be found scattered around the castle and some creatures will drop money when they are killed. You will also need to find or buy food and drink to keep up your strength, as contact with the she-warriors and apparitions will gradually sap your energy. The she-warriors can be killed and you can then mount the dragon. Whilst on the dragon your energy will not be depleted as the dragon will absorb all the blows. You start your quest armed only with a bow and arrow but 3 other weapons are available with various speeds and strengths.
Two types of key are needed in your quest. The large coloured keys will open the appropriate coloured doors, thus giving access to all parts of the castle. (You will also be transported to other parts of the castle if you fall down one of the wells). The small yellow keys will open the chests that you will find on your travels. The items contained in the chests may help or hinder you. How do you know what a chest contains? – you don't.

Continued

When you enter a shop, move the hand over the object that you wish to buy (if you have sufficient money). You can only carry one potion at a time because they are extremely dangerous and need careful handling. When a potion has been purchased it can be activated by pressing the space bar. What does each potion do? – that is for you to discover.
GOOD LUCK IN YOUR QUEST TO FIND THE SCROLL OF NECROMANCY. ONLY YOU CAN DESTROY THE LORD OF DARKNESS.
