

ILLUSION SOFTWARE

PRESENTS

A TRIAL OF SPEED DEXTERITY AND ACCURACY

ATARI SAFARI

Armed only with your trusty rifle how many animal targets can you shoot before the Pygmies get you or time runs out. Bring the thrills of the arcade, the fairground and the rifle range to your computer.

LOADING THE GAME

The game will boot load. Turn on the computer with the start button and option key depresses. Press **PLAY** on the recorder and **RETURN**.

PLAYING THE GAME

Place the Joystick in Port 1, when the game has loaded the title screen will be displayed. Press **START** to play. Music will be played throughout the game unless **C** is pressed while at the title screen. Now you will be able to play a music cassette through the recorder. (To turn off the cassette recorder type **M**)

Once the game has started you will be in the middle of a computer jungle. You can move the shotgun left and right (making the screen scroll if necessary) find an animal and shoot it by pressing the fire button. Varying points are awarded for different animals. If you clear a set before time runs out, you will see the interlude screen with your current score; press button to continue. If you get shot by a pygmy or time runs out the game is over.
