Story Mode

Santa needs your help to find Jack Frost and stop him from destroying Christmas. As you navigate icy obstacles and other North Pole perils, keep your eyes peeled for power-ups and Christmas collectibles scattered along the journey's path.

Game Modes

Santa's Gift Boxes

Surprise enemies and solve puzzles with these official North Pole-approved, one-of-a-kind Gift Boxes. Use the L and R Buttons to throw these potent presents and deliver your own brand of holiday cheer!

Christmas Tree Balls

Toy Tank

They may be tiny, but just remember some of the best gifts come in small packages.

Game Modes

Puzzle Objects

Unwrap your know-how to navigate these Workshop hazards and use them to your advantage.

Collapsing Platform

These sneaky floorboards seem perfectly solid… Until Santa stands on one, that is.

Moving Platform

These moving platforms patrol between two points. Use them to get Santa places he couldn't otherwise reach.

Bouncy Platform

Use these to put a little hop in Santa's step and a whole lot of height in his jump.

Locked Door

They block Santa's progress but can be unlocked with a key.

Game Modes

Ice Block

Santa can push these around to help him on his journey.

Snowy Floor and Wall

Santa can push these around to help him on his journey.

Air Vent

Air vents blow blasts of air upwards within some areas of the Workshop. Santa can use them to get to high areas by jumping and gliding over a vent.

Game Modes

Elf Puzzles

There are four timed Elf Puzzles where you control one or more elf workers, each with a unique tool. The object is to collect the pieces Santa needs to build his latest and greatest Christmas toy: the Jet Powered Scooter Board! Use the R and L Buttons to change Elves.

Scooter Board

You need to collect these four pieces to successfully build the Jet Powered Scooter Board:

Ironing Board

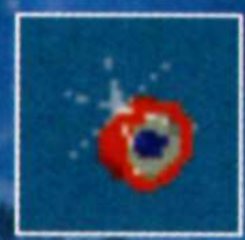

Pogo Stick

Rocket

Wheel

Game Modes

Elf Tools

Each Elf has a unique tool that helps to complete the puzzles. To use a tool, press the **B Button.**

Mallet — *Trigger buttons and pound nails through the floor.*

Screwdriver — *Screw a bolt through a wall to move a platform from one side of a wall to the other.*

Plunger — *Use the plunger to pull or push sliding boxes.*

Jackhammer — *Create a hole through certain floors, opening a passageway to the area below.*

Blowtorch — *Light furnaces to create steam, which in turn, lifts the furnace lid. This lid can then be used as a floating platform.*

Game Modes

Sleigh Ride

Use Santa's sleigh to deliver presents to all the good kids and coal to all the bad ones. Use the +Control Pad to control the sleigh and the A and B Buttons to drop the presents. Pick up time and score bonuses but be on the lookout for gusty winds and ice blasts which will only slow you down.

Health and Power-Ups

Health

In Story mode, Santa has a temperature meter that tells you how he's feeling. He starts with a warm temperature, but as he takes damage from Jack Frost or by the cold outside, his temperature drops. If it gets too low, Santa freezes and will be forced to begin again at his most recent level start.

Elves are a delicate bunch: In Elf Puzzle mode, one bad hit and they're down for the count – which means you'll have to restart the level all over again. But in Sleigh Ride mode it's all about delivering presents in the fastest time possible. Getting hit by a wind gust or ice blast will slow Santa down but not restart the level.

Health and Power-Ups

Power-Ups

Every mode provides some relief from the dangers of the North Pole in the form of power-ups:

Hot Cocoa — *The perfect elixir to heat up Santa's temperature meter.*

Candy — *Provides Santa with a power boost to protect him from the cold.*

Time Bonus — *In the Elf Puzzle and Sleigh Ride modes, collect a Time Bonus to add time to the current countdown.*

Score Bonus — *Collect a Score Bonus in the Elf Puzzle or Sleigh Ride modes to add points to your current score. The bonus provided varies based on the color of the power-up.*

Speed Boost — *When flying the sleigh this increases Santa's speed.*

Collectibles

Keep on the lookout for the following Christmas collectibles:

Milk and Cookies

These tasty treats help lead Santa through the levels. Additional Milk and Cookies can be found in more secret areas. Collect all of the Milk and Cookies within a level to unlock a nifty bonus. Complete the game with all Milk and Cookies collected and unlock a super-special Santa Claus surprise.

Collectibles

Puzzle Hints

These objects are found within the game's levels and provide tips applying to your current puzzle.

Snow Globes

In Story mode, find and return these to the Hall of Snow Globes to unlock special features, hidden surprises, and more!
