Midnight is upon us. The full moon shines down on the Haunted House situated by the graveyard. Nothing is stirring in the dark, that is until you have to pass through the graveyard. Then the full moon awakes the **Spooks, Spectres, vampire bats** and other creatures who are summoned to prevent you from reaching the columns where the master key is to be found. You must ward off all the evil forces coming at you with your **Anti-spectre bolt**. Get them before they get you.

The Game

The object of this game is to collect the master key from the columns. Using your joystick, you must battle your way through the evils of this now disused graveyard. Try not to lose the four crucifixes that you start with. You must duck down to escape the **Vampire bats** by pulling the joystick towards you. Press your fire button to shoot the spooks with your **Anti-spectre bolts** before they get to you or you will lose a crucifix. Watch out for the **Claws** grabbing for you from beneath, the **Devils Trident** trying to spike you, the **Lightning**, the **Gargoyles** and the **Flying Creatures** all out to stop you before you can reach the key.
