PLEASE CAREFULLY READ THE Wii™ OPERATIONS MANUAL COMPLETELY BEFORE USING YOUR Wii HARDWARE SYSTEM, GAME DISC OR ACCESSORY. THIS MANUAL CONTAINS IMPORTANT HEALTH AND SAFETY INFORMATION.

IMPORTANT SAFETY INFORMATION: READ THE FOLLOWING WARNINGS BEFORE YOU OR YOUR CHILD PLAY VIDEO GAMES.

### ⚠ WARNING - Seizures

- Some people (about 1 in 4000) may have seizures or blackouts triggered by light flashes or patterns, and this may occur while they are watching TV or playing video games, even if they have never had a seizure before.
- Anyone who has had a seizure, loss of awareness, or other symptom linked to an epileptic condition should consult a doctor before playing a video game.
- Parents should watch their children play video games. Stop playing and consult a doctor if you or your child has any of the following symptoms:

|                   |                         |                |
|-------------------|-------------------------|----------------|
| Convulsions       | Eye or muscle twitching | Altered vision |
| Loss of awareness | Involuntary movements   | Disorientation |

- To reduce the likelihood of a seizure when playing video games:
  1. Sit or stand as far from the screen as possible.
  2. Play video games on the smallest available television screen.
  3. Do not play if you are tired or need sleep.
  4. Play in a well-lit room.
  5. Take a 10 to 15 minute break every hour.

### ⚠ WARNING - Repetitive Motion Injuries and Eyestrain

Playing video games can make your muscles, joints, skin or eyes hurt. Follow these instructions to avoid problems such as tendinitis, carpal tunnel syndrome, skin irritation or eyestrain:

- Avoid excessive play. Parents should monitor their children for appropriate play.
- Take a 10 to 15 minute break every hour, even if you don't think you need it.
- If your hands, wrists, arms or eyes become tired or sore while playing, or if you feel symptoms such as tingling, numbness, burning or stiffness, stop and rest for several hours before playing again.
- If you continue to have any of the above symptoms or other discomfort during or after play, stop playing and see a doctor.

### ⚠ CAUTION - Motion Sickness

Playing video games can cause motion sickness in some players. If you or your child feel dizzy or nauseous when playing video games, stop playing and rest. Do not drive or engage in other demanding activity until you feel better.

When the system menu is updated, unauthorized hardware and/or software modifications may be detected and unauthorized content may be removed causing the immediate or delayed inoperability of your console. Failure to accept the update may render this game, and future games, unplayable. ## DRAW SOME ARTIST

### Main Menu

From here you can explore all the areas of the game and adjust your settings.

**Free Draw:** Go here to start drawing and painting right away with all the tools available. Express yourself using pencils, pastels, paint brushes, and more.

**Coloring Book:** Meet the Smurfs and help them get some color.

**Learn to Draw:** Get a peek at how to approach drawing the Smurfs in a step-by-step process. Have a go at inking some scenes.

**Gallery:** Show and organize your freshly made drawings. Continue from an old sketch or export a fully finished painting to an SD Card (find your pictures on the SD Card in the "/private/wii/app/SIXE/Drawsome/" folder). This is your personal gallery and you are your own curator.

**Settings:** Adjust the volume and check the shortcuts from your Wii Remote.

## Tools

Once you open the tools drawer, you can select any tool and start drawing or coloring. When you select a tool, you'll find more options in the drawer – like colors and sizes. Use the Tools button at the bottom of the drawer to go back to tool selection.

**Pencils:** Start sketching right away. You can use colored pencils for your guidelines or go straight to a bold black one to contour your ideas.

**Pastels:** Perfect to start shading your shapes or to block out a landscape in just a few strokes.

**Ink Pen:** Get the final linework done with a confident stroke.

**Paint Brush:** Ready for full color? Pick up the brush and see how the paint gets mixed. You're doing the real thing now.

**Eraser:** Everyone makes mistakes. This special eraser will be able to erase paint strokes or parts of the stickers.

**Stickers:** Create your own story with characters and props from the Smurfs universe, or simply add some flavor to your drawing. Mix it all up – it's your canvas and your game! Be free, go wild!

**Fill:** Not too good with the pencils or the brush? Are you in a hurry for a quick result? Use the Fill tool to color faster than anyone and without stepping outside the lines. No skills required – just creativity.

## Action Bar

**Undo:** Undo the last strokes faster than any eraser. You can try a complex line until you get it right. It's not cheating – it's technology.

**Redo:** Maybe that last line was nice after all. When you Undo too much, you can Redo your strokes

and bring them back.

**Save:** Save your work to continue it later or to display it in your gallery.

**New:** Start a new piece – it's the best thing to do after you warm up. Click this button to select your paper.

**Home:** This will take you back to the Main Menu so you can choose a different mode or review your settings.
