CANNON BALL

INSTRUCTIONS

To insure proper operation follow these steps exactly.

1. Turn on computer.
2. Insert tape into datacassette.
3. Rewind tape to beginning.
4. Type (shift) + (run/stop). Be sure to use left shift key.
5. Press play on datacassette.

The screen should clear and the program name will appear in the upper left corner. After 10 to 15 seconds the program title page will appear. And shortly thereafter the program will start.

If the word error appears in the left hand corner then a load error has occurred. Turn off the computer and restart from #1.

Each cannon has 12 cannon balls, and the game is over after all 12 have been fired. To fire the upper cannon, press the (F1) key; to fire the lower cannon, fire the (F3) key.

As the skull gets closer to you, its point value decreases, until it is worth -2 points. If it gets even closer, it will destroy half of your score.
