Important Health Warning About Playing Video Games

Photosensitive seizures

A very small percentage of people may experience a seizure when exposed to certain visual images, including flashing lights or patterns that may appear in video games. Even people who have no history of seizures or epilepsy may have an undiagnosed condition that can cause these “photosensitive epileptic seizures” while watching video games.

These seizures may have a variety of symptoms, including lightheadedness, altered vision, eye or face twitching, jerking or shaking of arms or legs, disorientation, confusion, or momentary loss of awareness. Seizures may also cause loss of consciousness or convulsions that can lead to injury from falling down or striking nearby objects.

Immediately stop playing and consult a doctor if you experience any of these symptoms. Parents should watch for or ask their children about the above symptoms—children and teenagers are more likely than adults to experience these seizures. The risk of photosensitive epileptic seizures may be reduced by taking the following precautions: Sit farther from the screen; use a smaller screen; play in a well-lit room; do not play when you are drowsy or fatigued.

If you or any of your relatives have a history of seizures or epilepsy, consult a doctor before playing.

ESRB Game Ratings

The Entertainment Software Rating Board (ESRB) ratings are designed to provide consumers, especially parents, with concise, impartial guidance about the age-appropriateness and content of computer and video games. This information can help consumers make informed purchase decisions about which games they deem suitable for their children and families.

ESRB ratings have two equal parts:

- **Rating Symbols** suggest age appropriateness for the game. These symbols appear on the front of virtually every game box available for retail sale or rental in the United States and Canada.
- **Content Descriptors** indicate elements in a game that may have triggered a particular rating and/or may be of interest or concern. The descriptors appear on the back of the box next to the rating symbol.

CAMPAIGN

It's been six months since a cataclysmic sandstorm wiped Dubai off the map. Thousands of lives were lost, including those of American soldiers sent to evacuate the city. Today, the city lies buried under sand, the world's most opulent ruin. Now, six months after the first sandstorms swept through Dubai, a mysterious radio signal is picked up from the buried city and a Delta Force Recon Team is sent in to investigate. Their mission is simple: Locate survivors and radio for evacuation. What they find is a city in the grip of war. To save Dubai, they'll have to find the man at the heart of its madness—Col. John Konrad.

UPLINK: Both teams vie for control of a central rally point to accumulate points. Your team's COM Station must be online to earn points. Disable the enemy's COM Station to prevent them from scoring. You can repair your own COM Station if the enemy has disabled it.

NOTE: During a match you can find information on the current game mode on the in-game pause menu.

CHARACTER CUSTOMIZATION

CHARACTER CLASSES

Choose from six unique classes to best fit your play style and compliment your teammates. The Gunner and Medic classes are available from the start, while others become available as you gain levels by acquiring XP from completing multiplayer matches. Re-enlist to unlock larger bonuses for each class!

GUNNER

Gunners take less damage overall than other classes, and provide a damage boost to the player and any nearby teammates. The Gunner may also select a heavy support weapon (M32 MGL, RPG-7, or M249 SAW) in place of a side arm.

MEDIC

Medics increase the health regeneration rate of nearby teammates, as well as themselves, and can revive fallen allies faster than other classes while providing temporary invulnerability upon revival. Medics can also give allies an adrenaline boost, making them temporarily invulnerable to anything but headshots and explosives.

BREACHER (EXILES ONLY, UNLOCKED AT RANK 3)

Breachers are experts in explosives. Breachers and nearby teammates cause more explosive damage, and they can carry double the normal amount of grenades, mines, and C4.

SCAVENGER (DAMNED ONLY, UNLOCKED AT RANK 3)

Scavengers increase the blast radius of their own explosives, as well as those of nearby teammates, and take less damage from explosive sources. Scavengers can also repair VPs at a much higher rate.

SNIPER (UNLOCKED AT RANK 6)

Snipers give themselves and any teammates in close proximity a boost in accuracy, and can mark enemy players. Snipers are also able to wear advanced Ghillie Suits, which allow them to blend into the environment when standing still.

OFFICER (UNLOCKED AT RANK 37):

Officers are the backbone of your team, providing a decrease in damage taken for themselves and any nearby teammates, and increasing the effectiveness of their unique class abilities. Officers can drop supplies for teammates, and place objective markers that increase the armor and damage output of any teammate in the vicinity.

CHARACTER CUSTOMIZATION

LOADOUTS

Give your character a unique look and equip weapons and armor in the Loadouts menu.

WEAPONS

Select primary weapons, secondary weapons, and explosives for your character to bring into combat.

ARMOR

Equip different sets of armor to your character. Each higher armor class provides increased protection at the expense of reduced mobility.

KIT

HEAD: Items for your head and face including hats, helmets, and face paint.

ACCESSORIES: Equip accessory sets to your character to alter their appearance.

PATTERN: Apply different textures and patterns to your uniform.

PERKS

Perks offer unique abilities to aid you in combat. Two Perks may be equipped at a time, with a third slot available once unlocked. Each Perk has a basic and advanced version. Continue using a Perk to unlock its advanced version.

ADAPTED: Allows running during a sandstorm.

ALWAYS PREPARED: Start with an extra primary weapon instead of a pistol.

BLOOD THIRST: The damage you do increases 10% with every kill, but the damage resets when you die or go 30 seconds without killing someone.

COMMANDO: Go into battle with two extra magazines.

COVER RAT: Take reduced damage while behind cover, not including flanking attacks.

CHARACTER CUSTOMIZATION

COVERT: Enemy crosshairs won't turn red when an enemy aims at you.

GHOST: The word "Ghost" shows up on the kill roster after a kill, rather than your name, preventing any character from getting a revenge bonus for killing you.

HUNTER: Your position on your enemy's minimap will be incorrect.

IED EXPERTISE: Enemy mines will explode 5 seconds after they are triggered.

RESILIENT: Remain alive much longer while DBNO (down but not out).

SCRAMBLER: Reduce the amount of time you are stunned from flash bangs and sand bombs.

SITUATIONAL AWARENESS: Covert operatives appear as normal players, and your crosshairs turn red when you highlight them.

STEADY HANDED: Instantaneously switch from regular aiming to using your iron sights or scope.

TACTICIAN: Every time you hit an enemy with a bullet, their speed slows by 20%.

WEIGHT TRAINING: Do more damage with your melee attacks.
