BARGE

A K-TEK™ product for ATARI® computer systems

Capsized speedboaters flounder helplessly in deadly currents and undertows as a storm rages on the Mississippi. Can you, Captain of the barge S.S. Commodore, maneuver through the ten foot waves and around wind-tossed debris to rescue the survivors and gain points? Or will you crash into a wildly careening speedboat and end up in the drink yourself? Lose three barges and all is lost! This will require all the guts and daring you can muster!
